PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience designing and building scalable enterprise applications. Proficient in front-end frameworks (React, Angular, Vue.js), back-end development (Java, Spring Boot, Node.js, Python, .NET), and databases (SQL Server, MySQL, MongoDB). I am skilled in RESTful API design, Agile methodologies, Git version control, and CI/CD pipelines. Strong expertise in cloud deployment (AWS, Azure), containerization, and troubleshooting complex systems. Proven ability to deliver secure, high-performance, and maintainable full-stack solutions while collaborating with cross-functional teams.

PROFESSIONAL EXPERIENCE

AT&T

Software Developer

Aug 2024 – Present

Chicago, IL

- Developed responsive UIs using React.js, Angular, HTML5, CSS3, JavaScript (ES6+), ensuring seamless user experiences.
- Built and optimized REST APIs and microservices using Java (Spring Boot), Node.js, and Python, improving scalability and reliability.
- Designed SQL and MongoDB queries, boosting database performance by 30%.
- Deployed applications to AWS (EC2, RDS, S3) with CI/CD pipelines (Jenkins, Docker, Git, Maven/Gradle), reducing release cycles by 40%.
- Ensured application security by implementing OAuth2, JWT authentication, and secure coding best practices.
- Mentored junior developers in Agile/Scrum, DevOps, and TDD practices.

Molina Healthcare

Software Developer

Aug 2021 – July 2023

India

- Delivered full-stack healthcare applications using Java, Spring Boot, Angular, React.js, supporting patient data processing and claims workflows.
- Integrated RESTful APIs and GraphQL services with backend systems, ensuring compliance and reliability.
- Enhanced deployment pipelines with Jenkins, Docker, Git, improving delivery speed and consistency.
- Strengthened application reliability through unit and integration testing (JUnit, TDD).
- Collaborated with cross-functional Agile teams (PMs, QA, business analysts) to align development with healthcare regulations and business needs.
- Gained exposure to Kafka for real-time healthcare event streaming.

TECHNICAL SKILLS

Front End: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Angular, Vue.js, Redux, Bootstrap

Back End: Java, Spring Boot, Node.js, Express.js, Python, .NET

Databases: SQL Server, MySQL, PostgreSQL, MongoDB, DynamoDB, Oracle

Web & APIs: RESTful APIs, GraphQL, Microservices, OAuth2, JWT, Security Best Practices

Cloud & DevOps: AWS (EC2, S3, Lambda, RDS, API Gateway, CloudWatch), Azure, Docker, Kubernetes, Jenkins, Git/GitHub, Maven/Gradle

Tools: Splunk, ELK, Prometheus, Kafka (exposure)

Practices: Agile/Scrum, CI/CD, Test-Driven Development (TDD), Debugging, Code Reviews

EDUCATION

Eastern Illinois University

Master of Science in computer technology | GPA: 3.80

Charleston, IL

Vardhaman College of Engineering

Bachelor of Technology in Information Technology

Hyderabad, India
